

ATTENTION AVALANCHE AND ESCALADE EXT OWNERS!

"Are you tired of lifting those heavy tonneau cover panels?"

Auto-Covers Inc. has the solution with a ...

POWERED RETRACTABLE TONNEAU COVER

The owners of Auto-Covers Inc. have designed a simple powered retractable truck tonneau cover. "It is the coolest tonneau cover out there," says an automotive supplier. The tonneau system is designed and engineered by experienced engineers, using the latest computer-aided design software.

"It's a fully retractable folding hard tonneau system that stores on the vehicle roof top, just at the touch of a button," says Peter Elkowitz of Auto-Covers.

Unique benefits of Auto-Covers' tonneau system:

- Hydraulically driven, convenient and effortless
- Computer controlled 1-button operation
- Open or close the cover in less than 8-seconds
- Full use of mid-gate and truck bed
- Close the covers to seal the truck bed
- Strong, durable hard cover finish
- Aristo-Cote Quantumshield coating
- Drive at regular highway speeds
- Covers store out of the way
- Compact drive system
- Safety indicator light

"Our 45-years of combined industry experience in designing convertible top mechanisms was used to create this tightly packaged reliable system," says Frank Neubrand of Auto-Covers. "Basically, we moved the technology of designing convertible tops into the field of designing tonneau covers." The engineers at Auto-Covers have premium class European convertible design experience.

Designed specifically for the Chevrolet Avalanche and Cadillac Escalade EXT, it is *a perfect accessory for owners looking to upgrade* their vehicle with an efficient cover system.

"Imagine being able to open or close your tonneau cover in less than 8-seconds"

What's next? The engineers at Auto-Covers are hard at work designing new systems for other pick-up trucks in the near future. Let us know what you want!

POWERED RETRACTABLE TONNEAU COVER

Fits all vehicles with or without roof racks.

Panels feature Aristo-Cote's Quantumshield coating. A strong and durable finish.

The tonneau system fully seals the bed from the elements.

Secure: Two latches automatically lock the panels when closed.

Tough hard composite panels, Strong enough to stand on.

Drive with the panels up or down! The panels automatically latch to the vehicle in either case.

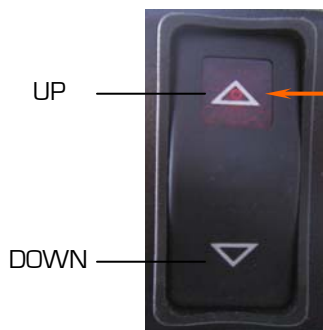

Retains all current features of the Avalanche and Escalade EXT. Full use of the pick-up bed and mid gate when tonneau is opened.

Switch Location
Opens in less than 8 seconds.

Panels automatically store and latch to the roof. The vehicle can be driven at highway speeds with the system open.

Compact! The drive system takes up very little space.

Convenience at the touch of a button. But safety first! Indicator light shows when the covers are latched or not. Press and hold the button to move the panels. However in case of trouble, let go of the switch and system immediately stops, holding the panels in position. Resume by pressing the switch again.
